

STUDENT BROADBAND

PROVIDED BY JUNET

✔ START SURFING - NOW!

The internet service provider Junet has activated an internet connection in your home. You don't need to pay anything extra, it's included in the rent. Just connect an ethernet cable to your computer and surf! If you want to surf wirelessly (wifi) you need a wireless router (not included*).

*You will find affordable routers in most electronics stores. Give us a call if you have any questions or ask your fellow students for help (sometimes previous tenants leave their used routers behind to be reused).

✔ FEEL THE NEED FOR MORE SPEED? UPGRADE TO 100 MBIT (OPTIONAL)

30 Mbit/s is included in the rent. For the discounted price SEK 100 per month you can surf, download, game, and stream using 100 Mbit/s instead. You only pay for the months you would like to be upgraded, afterwards it automatically goes back to 30 Mbit/s if you don't pay for more months.

To upgrade, visit the Junet office at Klostergatan 56 and bring:

- Student ID (or Letter of Acceptance)
- Passport
- Rental agreement for your student accommodation
- Credit card (for payment in advance)
